

MAXXDRIVE® XT
Right-Angle Gear Units
Industrial Gear Units

NORD DRIVESYSTEMS Group

Industrial gear units

Geared motors

Frequency inverters and motor starters

- ▶ Headquarters and technology centre in Bargteheide near Hamburg.
- ▶ Innovative drive solutions for more than 100 branches of industry.
- ▶ 7 production locations with cutting edge technology produce gear units, motors and drive electronics for complete drive systems from a single source.
- ▶ NORD has 51 subsidiaries in 36 countries and further sales partners in more than 50 countries, providing local stocks, assembly centres, technical support and customer service.
- ▶ More than 4,000 employees throughout the world create customised solutions.

Headquarters in Bargteheide

Gear unit production

Inverter production

Motor production

Production and assembly

Motor mounting

Reliable drive units with maximum thermal and mechanical load capacities with greatly increased bearing life are necessary in material handling technology for transporting bulk materials.

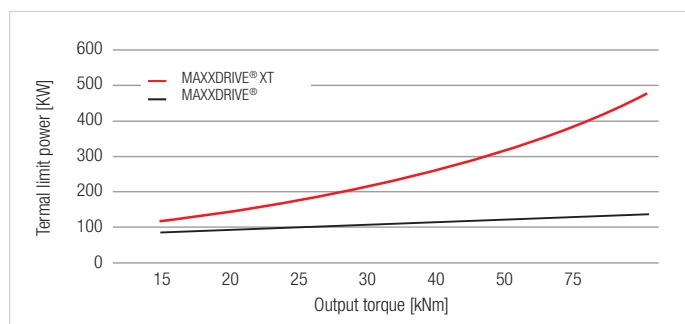

With its latest development, the MAXXDRIVE® XT gear unit series, NORD has launched an a high performance drive system, which uniquely meets all of these requirements.

Characteristics / Performance

- ▶ Developed for maximum thermal power
- ▶ Maximum size axial fan and optimized cooling air flow
- ▶ Considerably increased housing surface for effective heat transmission
- ▶ No external cooling required
- ▶ Externally accessible backstop
- ▶ Variable installation / mirror image design
- ▶ Universal, symmetrical housing

Ultimate thermal limit power

To achieve the maximum thermal load capacity, the perfect contour of the gear unit housing was developed with the aid of CFD analysis and the air flow of the integrated axial fan was optimized to achieve a highly efficient cooling effect.

Available sizes and speed ratios

Type	Speed ratio	Output torque	Thermal limit power	Hollow shaft	Solid shaft
	[-]	[Nm]	[kW] *	d [mm]	d [mm]
SK 5217	6.3 – 22.4	15,000	max. 347	105	120
SK 6217	6.3 – 22.4	20,000	max. 439	105	120
SK 7217	6.3 – 18.0	25,000	max. 493	125	140
SK 8217	6.3 – 20.0	30,000	max. 574	125	140
SK 9217	6.3 – 18.0	40,000	max. 541	160	160
SK 10217	6.3 – 18.0	50,000	max. 829	160	160
SK 11217	7.1 – 22.4	75,000	max. 877	170	170

* max. power at 1,500 rpm and 20 °C ambient temperature

MAXXDRIVE® XT Right-Angle Gear Units

MAXXDRIVE® XT product options

- ▶ Integrated axial fan with protective cover on the drive shaft
- ▶ Foot mounted version (solid output shaft)
- ▶ Flange version (output flange)
- ▶ Shaft mounted (hollow output shaft with parallel key or shrink disc)
- ▶ Fixing element, protective cover, torque support
- ▶ Externally accessible backstop
- ▶ Monitoring sensors (temperature, vibration, speed, oil level, etc.)
- ▶ Auxiliary drive (Gearmotor)
- ▶ IEC/NEMA adapter
- ▶ Oil heater

Housing

- ▶ UNICASE housing, one-piece housing design
- ▶ Efficient cooling fin geometry
- ▶ Optimised strength and rigidity
- ▶ Special high-precision housing production
- ▶ High-precision shaft bearings

Gearing

- ▶ Developed according to international standards
- ▶ Case-hardened and hard finished
- ▶ In-house quality production
- ▶ Noise-optimised bevel gears

Complete drive system package

Fully assembled and aligned, including protective covers and monitoring systems

Options

Drive coupling types

IEC/NEMA adapter

Output shafts

Backstop

Brake types

Auxiliary drive unit

Mounting Base

Motor

Sealing systems

Standard Input
(One sealing ring and one gamma ring seal)

Standard Output
(Two shaft sealing rings)

Taconite F Input/Output
(Grease-lubricated labyrinth seal, re-greaseable)

Roller bearings

- ▶ High quality roller bearings from brand manufacturers
- ▶ Reduced friction roller bearings
- ▶ Long-life roller bearings

The MAXXDRIVE® series is the dependable member of the NORD product family for high torques. With an extensive range of modular products NORD provides many technically and commercially optimised drive solutions. Especially in the field of agitator drive systems, tailored solutions can be offered through the combination of the many standardised variants and options.

NORD DRIVESYSTEMS Product portfolio

- ▶ Complex drive systems from modular components
- ▶ Great depth of production
- ▶ High availability
- ▶ Global production network
- ▶ Short delivery times for stock components and spare parts
- ▶ Highest product quality at all locations
- ▶ ATEX version also available
- ▶ myNORD customer portal for online configuration, prices, delivery times and orders
- ▶ 24/7 dependable partner for engineering, production, installation and service
